

Florida Association of Fire Rescue Cadets

Victim Rescue Drill

2026 Summer Gator Fire Games

Objective:

This drill was developed to teach Cadets to work as a team. This event requires four (4) team members who will demonstrate their ability to safely negotiate an obstacle course to rescue a smoke victim. The first obstacle is a simulated wall with a low-profile opening. The second obstacle is a simulated confined space. The third obstacle is an included tube. The fourth prop is a flat elevated surface with a hole at the end for cadets to drop to the ground. The manikin will be on the ground, the manikin will need to be brought back through all the obstacles. All team members must make it to the elevated surface, only two must go to get the manikin. The victim is a manikin made of hose, weighs approx. 90 lbs.

Requirements:

- Each post can enter a maximum of three (3) teams consisting of four (4) Cadets/Explorers.
- No Cadet/Explorer can participate in this event twice.
- All team members will be in full structural turnout gear with SCBA without a mask (no hood)
- SCBA's will be available to use for groups that do not bring them
- No outside equipment allowed during this event.

Rules:

1. Time begins on the "GO" command
2. The entire team **must** maneuver through the first (3) obstacles, must completely clear the tube and be fully on the platform.
3. Only 2 team members must go through the hole and go past the end of the platform before returning with the victim.
4. The victim and all team members must exit through the simulated wall with a low-profile opening (Prop 1)
5. If any team member's protective clothing is compromised or removed (i.e. helmet falling off, gloves coming off, etc.), the issue must be fixed before continuing through the rest of the event.
6. No throwing of the victim, or an unsafe act penalty will be assessed.
7. No standing on top of the platform, standing will be considered unsafe.

Penalty:

- Penalized **10 seconds** for each infraction. Helmets and gloves must be fixed before the member can continue.
- Any unsafe act will result in a **20 second** penalty for each infraction.

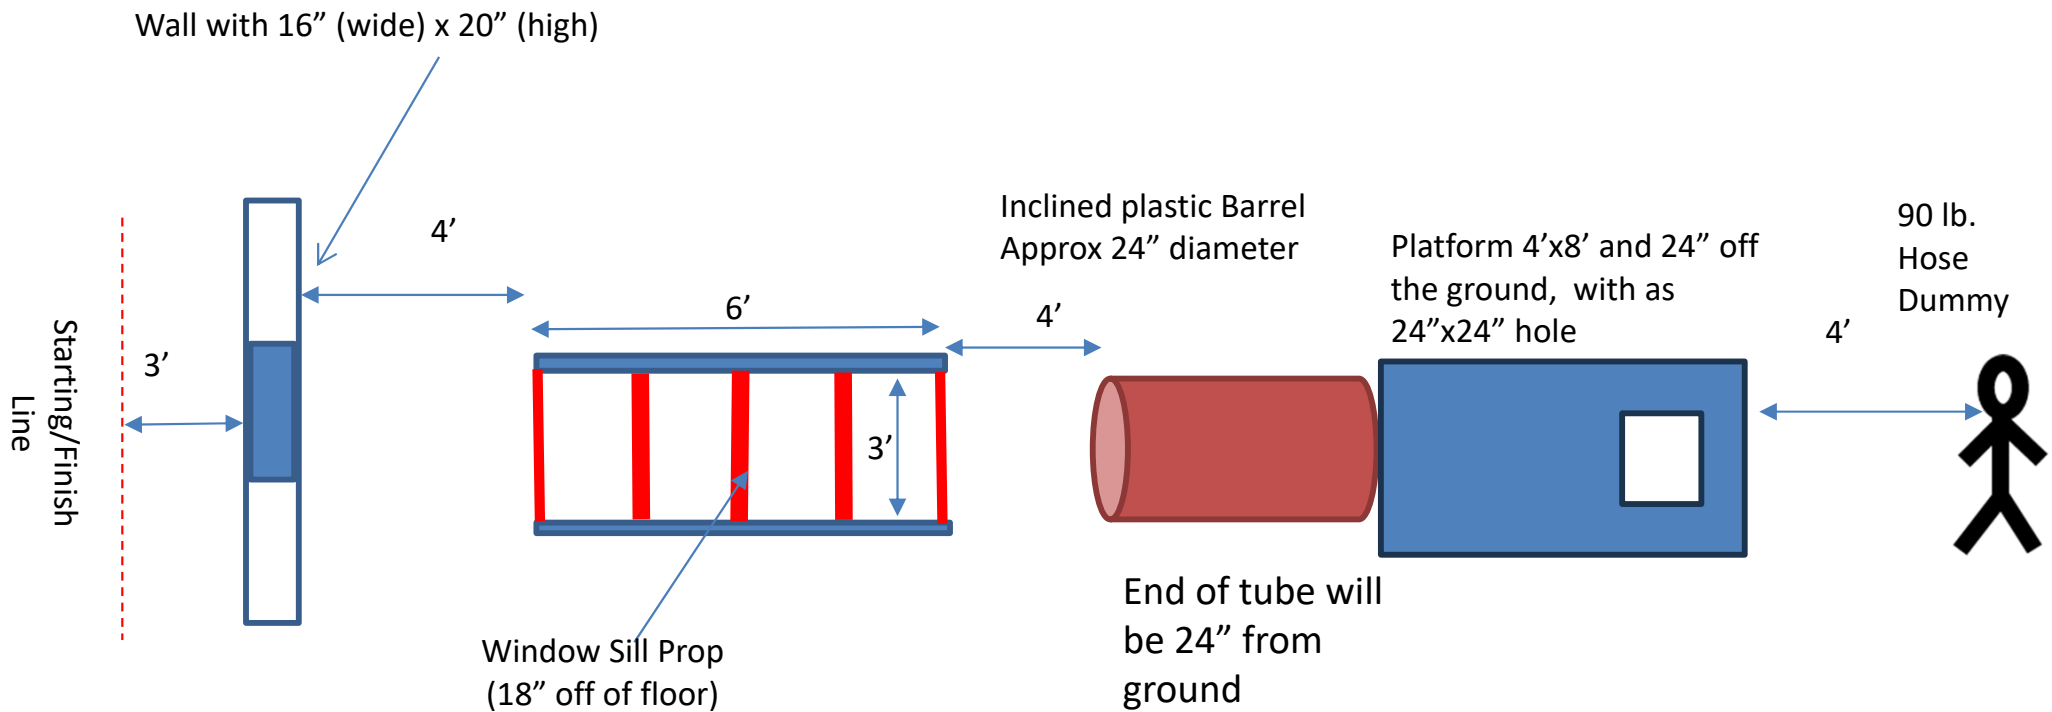

2026 Victim Rescue Drill

(Training Props and Diagram)

Actual event props will be built on site at the event. These are rough training props to demonstrate what props will look like.
